Work Experience

Education / Certificates

## About me

As a recent IT graduate with a broad skillset, I am open to exploring a range of opportunities. However, I am particularly interested in roles that would allow me to apply my knowledge and skills in web development, web design, project management, software testing, and programming language such as Python. I have completed several projects that showcase my design skills and ability to work collaboratively. I am a multitasker with a strong work ethic and good teamwork skills, who is detail-oriented, possesses problem-solving and organizational abilities, is adept at managing multiple priorities and is willing to take on additional responsibilities and always maintain a positive attitude.
